

## 4th Annual Central Region AES Student Summit

The Fourth Annual Central Region Student Summit will be rocking March 26th - 28th at Webster University in St. Louis, Missouri. This summit is an opportunity for students from the Central Region, some of whom cannot attend the conventions in New York or California, to mingle with their peers from other educational institutions as well as professionals.

In addition, it provides students with the same opportunity to put their hands on gear and network with the pros, just like on the exhibition floor at the Javits or the Moscone Center. This event does not replace the big AES conventions, for those who go to New York or San Francisco this will supplement your experience, for those who can not go it will give you the opportunity to see what you are missing, and gather some knowledge, and make some new like-minded friends.

Great guest speakers are already lined up, including George Massenburg and Frank Filipetti. There will be panels and tutorials on such topics as Internships and Entry Level Positions, Home Recording, Gaming, the Future of Analog, Aesthetics, Studio Ownership, Women in Audio, Sound Reinforcement, Signal Processing and Vintage Gear, to name a few.
